Upon resuming attendance, the Teaching management may require the student to undertake activities to make up for missed lessons, which are not covered by the school fees. Non-European students authorized to study in Portugal will have their suspension communicated to the Police in Lisbon and the Portuguese Consulate responsible for issuing their study visa.

IX - EVALUATION

1 - Learning Assessment Strategies

The following assessment strategies are applied in general:

Diagnostic Assessment (evaluation of portfolio and work for candidates with experience) with the aim of making an identification and assessment of acquired skills, to detect shortcomings and specific difficulties associated with knowledge and skills and that serve as guidance for the development of training.

Continuous and formative assessment; refers to the assessment carried out throughout the course, through monitoring and feedback of the trainee's learning process in terms of acquired knowledge. This follow-up is carried out by means of exercises proposed throughout the training sessions of the various modules, which seek to consolidate and verify knowledge. The criteria used in continuous and formative assessment vary from module to module according to their more theoretical and/or practical nature.

Summative Assessment: carried out at the end of each module and may take the form of a theoretical and/or practical test/exercise.

2. Final classification

The student final classification will be awarded on a scale of 0 to 20 points.

For the purposes of success in the course, the student's final classification must be equal to or greater than 10.

The average mark of the course results from a weighted calculation that considers the importance of each module/exercise:

Formula for calculation: **Final Classification = Sum of partial results (weighting x compulsory module grade).**

Group	Modules	Contemporary Jewellery course		High Jewellery course		Jewellery making foundations		
		Weight	Status	Weight	Status	Weight	Status	
I	Practical	Jewellery making techniques	45%	Mandatory	45%	Mandatory	85%	Mandatory
		Project	40%	Mandatory	35%	Mandatory		
		Rhino			10%	Mandatory		
II	Theoretical	Theory of Materials and production	15%	Mandatory	10%	Mandatory	15%	Mandatory

Intermediate weightings:

Contemporary Jewellery High Jewellery Jewellery making foundations	Jewellery making	Execution time	15%
		Technical quality	40%
		Finishing quality	25%
		Understanding and implementation	20%
	Project	Creativity	60%
		Continuous evaluation *	40%

* encompasses attendance, participation, research method and ability to understand and apply procedures and orientations.

5. Certification

At the end of the course, students who successfully complete the course (average of 10 or more points) will be issued with a Training Certificate, in accordance with the legislation in force.

The delivery of the Training Certificate is conditional if there are payments to be settled by the student.
